Compliance with tax obligations:

Users of the Website are entirely responsible for determining what, if any, taxes, if any, apply to their transactions. The Website's owners or authors are not responsible for determining which taxes apply to transactions.

Limitation of liability

Floki Kishu shall not be held liable for any loss or harm resulting from the use of this website's material, including written material, links to third-party sites, data, quotations, charts, and buy/sell signals. Please be fully informed about the dangers and expenses of trading assets on the financial markets (digital or otherwise). ICOs, in particular, are one of the riskiest investing options. There's a chance you'll lose your whole investment.

Investment risks

Trading cryptocurrencies have a high level of risk and is not suited for all investors. You should carefully evaluate your investing goals, level of expertise, and risk appetite before opting to trade cryptocurrencies, tokens, or any other digital asset.

INTRODUCTION

Rabid Doge token, a new cryptocurrency that was created in July 2021, is one of the fastest-growing cryptocurrencies on the market. Rabid Doge is a decentralized cryptocurrency that helps preserve dogs while also promoting crypto to the general public. Rabid Doge is now a speedier token thanks to Binance Smart Chain (BSC) technology, with 10x faster block times and a lower gas charge.

Rabid Doge token's meme father, the Doge, has taught him a few skills and lessons. Rabid Doge, created by members of the DogeCoin online community, seeks to wow 'U his father with his new enhanced transaction speeds and adorableness. Rabid Doge Auto Boost is a mathematically designed algorithm that performs variable buybacks that change based on volume to preserve stability. AutoBoost will change based on the number of transactions in the last 24 hours, and it will continue to modify dependent on volume.

When RABID DOGE has a sale, AutoBoost will purchase back a variable amount. This is a one-of-a-kind feature that is more powerful than a normal repurchase token.

V I S I O N

We aspire to put "cryptocurrency in every portfolio." We envision a world where wealth-building strategies that were once only accessible to affluent individuals become available to everyone, transferring the power over our financial systems back to the people. We are extremely resilient and dedicated to offering a privacy-focused and fully decentralized ecosystem on the planet. Our vision is to build a decentralized application for cryptocurrency. Rabid Doge aims to change how we perceive decentralized mobile applications by aiming to end consumers.

Rabid Doge platform is positioned for global adoption with no limitations helping to earn a handsome income through Holding along with maintaining their privacy, security, and autonomy. We strive to create an ecosystem based on sound monetary policies, with a sound and solid decentralized foundation, that should be expected with the Rabid Doge platform.

ECOSYSTEM

Rabid Doge token is a decentralized finance (DeFi) token on the BSC with two functions that take place during each trade: Reflection, and liquidity pool. These functions work together to overcome messy problems caused by farming rewards, and price fluctuations. that it is nearing the BSC user ceiling and its growth is unsustainable. We believe that the Rabid Doge token will see exponential growth, just as Rabid Doge has, and Rabid Doge token hopes to generate immense value for our community by taking advantage of this opportunity.

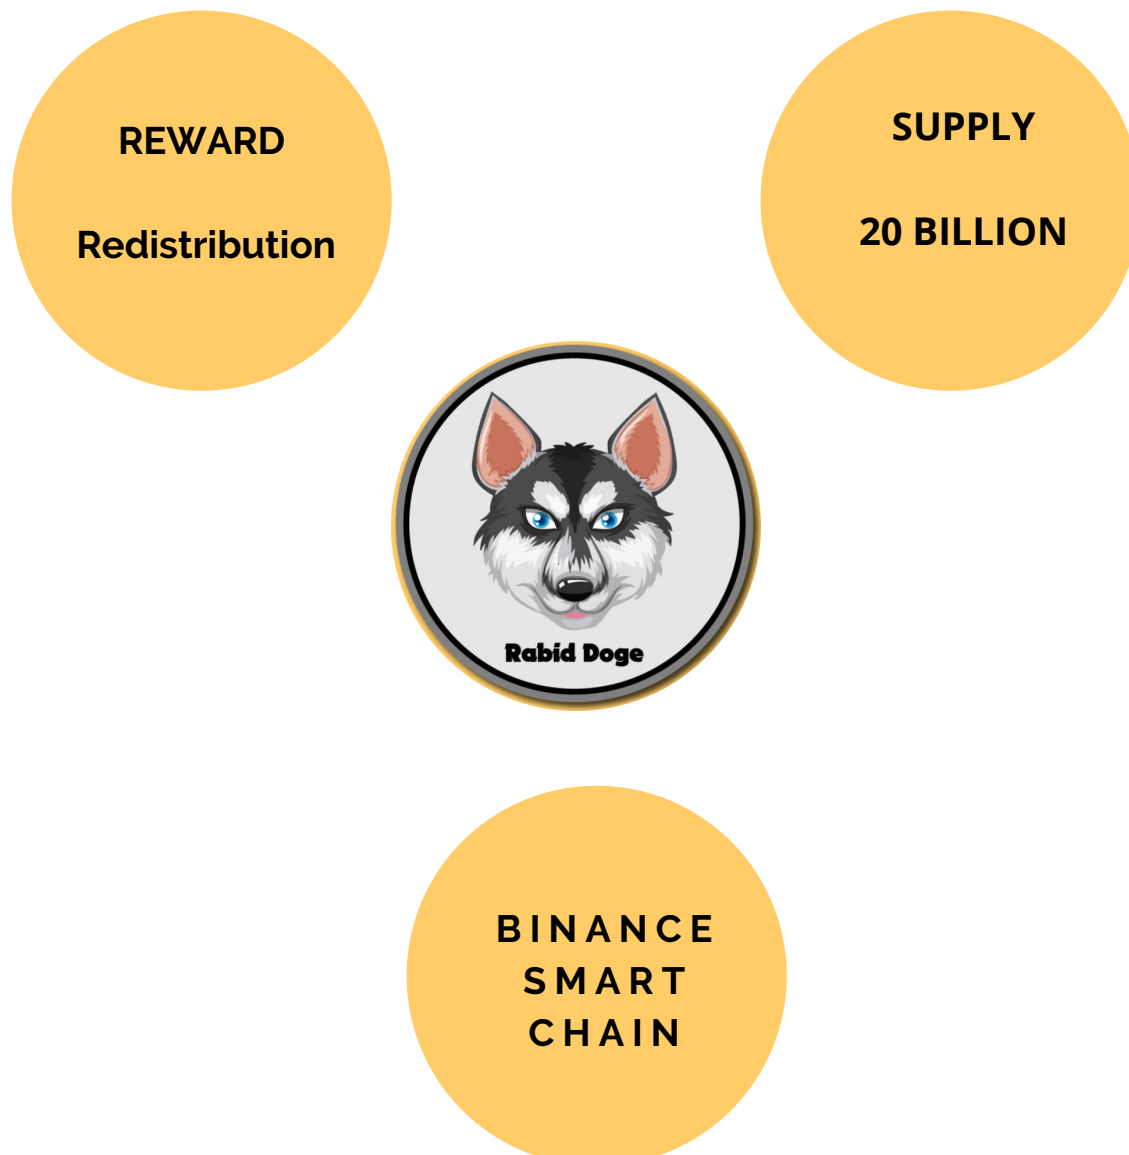

REFLECTION also known as rewards, aims to prevent price collapses and valuation bubble busts caused by liquidity provider (LP) farming rewards. Manual burns assist in rewarding and informing the community.

Reflection/Rewards

The reflected method successfully enables token holders to hold their tokens depending on percentages completed and total tokens owned by owners. Rewards play an important part in addressing a variety of issues in order to provide investors with earnings depending on the number of tokens exchanged in the market.

This method attempts to relieve some of the negative sell pressure on the token that has been created by early adopters selling their tokens after harvesting insanely high APYs. Second, the reflecting mechanism encourages holders to keep their tokens in order to earn greater kickbacks, which are calculated as a proportion of the total tokens owned by the owner.

LIQUIDITY LOCKED

Liquidity providers receive LP tokens for providing liquidity. Users pay fees for trading on DEX, which is allocated to liquidity providers depending on the quantity of LP tokens or percent share they own in the pool. LP may suffer a temporary loss as a result of providing liquidity, and they may not get the same number of tokens back.

The TheRabid Doge TOKEN protocol guarantees that token holders' assets are immediately taken and locked for liquidity. The primary goal is to keep the holder informed about the Rabid Doge TOKEN performance by avoiding whale dips when they are used in a mass trade-off. In the trading market, the DeFi, like the SafeMoon token, has a high price value with less volatility.

Rabid Doge TOKEN secret is Automatic LP. We have a function here that serves as a dual-beneficial implementation for holders. To begin, the contract collects tokens from both sellers and purchasers and adds them to the LP, establishing a stable price floor. Second, the penalty serves as an arbitrage-resistant mechanism, ensuring that the volume of Rabid Doge TOKEN remains safe as a reward for the holders. In principle, the additional LP provides stability by adding the tax to the token's total liquidity, thus raising the token's overall LP and maintaining the token's price floor.

This differs from other reflection tokens' burn function, which benefits only in the near term from the given supply decrease. The price stability of the Rabid Doge token LP mimics this function, with the added advantage of a firm price floor and cushion for holders. The aim is to avoid bigger drops in the price when whales opt to sell their tokens later in the game, which prevents the price from changing as much as it would if the automated LP mechanism wasn't in place. All of this is in an attempt to address some of the issues with the existing DeFi reflection tokens. For these reasons, we are sure that our system and protocol will triumph over outdated reflection tokens.

RABID DOGE STAKING

Rabid Doge works on the Binance platform, which is eco-friendly, working on a proof of stake. In addition to being the largest crypto exchange by trading volume, Binance offers exemplary staking services. Binance staking ensures users' funds are safe by leveraging effective security measures and providing Secure Asset Fund for Users (SAFU). Our staking method at the time of writing is arguably one of the safest and eco-friendliest methods (for cryptocurrency) to earn passive income. The platform stores all staked tokens using a secure wallet and a double-checking system.

Rabid Doge staking is quickly becoming a practice of gaining passive income by merely storing or locking funds in a wallet as more individuals, including institutional investors

understand the crypto market's lucrativeness. Since staking cryptocurrencies necessitates certain technological crypto know-how and compliance criteria, Rabid Doge staking platforms are useful for allowing investors, including those lacking technical knowledge of cryptocurrencies, to stake proof of stake (PoS) tokens and receive rewards. The staking network lends you their professional skills and authenticates stakes on your behalf for a small percentage of your staking prizes, allowing you to receive submissive profits. Staking platforms that enable investors to collect staking incentives have sprung up in response to the rapid growth in crypto staking. If you're interested in earning a passive income by staking, this is the place to be.

Benefits of staking

Staking is advantageous in cryptocurrency as it generates rewards by holding the token on any exchange and generates passive income. When an investor holds a token and staking the pool, it is the easiest method to do, in a decentralized world. There is very sufficient energy consumption and stumpy probabilities of risks while staking than any crypto mining. Rabid Doge Swap is here for you.

There are a few quantifiable benefits of Staking token with Rabid Doge:

NO HARDWARE IS REQUIRED

Unlike proof of work, there is no need of a specific equipment or hardware for crypto staking. Proof of stake works with no equipment requirements. The only requirement is to hold the token for an interval of time by the holders on any exchange

PASSIVE INCOME

Stake holders earn incentives by holding and controlling their digital wealth. Passive income for the beneficiary is the reward of staking.

SCALABILITY

In the Blockchain world, scalability is a concept that is often used. It refers to a computational process's potential to be used or generated in a variability of ways. Proof of stake protocols, as shown by MegaFox higher transaction outputs and lower fees, make for greater scalability.

ECO-FRIENDLIER

As Proof of stake blockchains are less energy-consumers, they are more environment friendly. Thus, they have a lower carbon footprint and have little or no environmental effects.

MORE COST-EFFECTIVE

Proof of stake blockchains are always inexpensive and less energy-consuming platforms with no particular and expensive hardware requirements. Unlike proof of work chains, PoS is more cost-effective and eco-friendly. So, the stakers can earn more passive income by using Rabid Doge Swap.

HIGHLY SECURED WITH THE HELP OF MEGAFOX CONTRACT

The biggest issue in the modern world is security and privacy, and Floki kishu provides a swift and stable portal that is backed by the Rabid Doge contract, making him superior to others. Rabid Doge contract is offering a highly secure and fast platform to the users for staking crypto.

RABID DOGE SWAP

With Rabid Doge Swap, you can exchange crypto in your Private Key Wallet or your Trading Account. Swapping from your Private Key Wallet provides you with the benefits of a non-custodial, on-chain trade settlement. Swapping from your Trading Account provides faster settlement and no network fees.

There are many great reasons our Wallet users love using Swap

- Quickly swap into an asset you believe will grow
- Move out of a volatile asset into one of our stable tokens
- Hedge against real-world events.
- Rabid Doge Swap platforms are integrated into the top cryptocurrency trading exchanges in the world, this allows users to search and select the best rates for the transaction. An additional benefit is that some crypto swap services do not require users to create an account

WHY RABID DOGE ?

Open for global participants

Rabid Doge facilitates the transaction and brings them closer to a wider audience. An added benefit of Rabid Doge's use is that it's completely decentralized, so trading can be done freely across borders. The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. Rabid Doge has no border so these can be used no matter where you are located globally. This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

Free from corporate and government interference

Rabid Doge transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization and waiting period requirements.

The efficiency of payment transactions

Standard transfers and foreign purchases typically involve fees and exchange costs. Since Rabid Doge transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization requirements and wait periods.

Increased liquidity for investors

Rabid Doge enjoys high liquidity as they are traded. The importance of high liquidity includes fair asset prices, market stability, technical analysis accuracy, and quicker transactions.

WHY RABID DOGE?

Transparency & immutability

With the Rabid Doge, each time exchange of tokens is recorded on a certain blockchain, an audit trail is present to trace where they came token from. This can not only help improve security and prevent fraud in exchange-related businesses, but it can also help verify the authenticity of the traded assets.

Lower Fees

The fees associated with Rabid Doge transactions are far less than those associated with debit, credit cards as well as wire transfers, and BACS payments.

Transaction traceability

Rabid Doge is far more secure than other record-keeping systems because each new transaction is encrypted and linked to the previous transaction.

Rabid Doge is formed by a complicated string of mathematical numbers and is impossible to be altered. This immutable and incorruptible nature of Rabid Doge makes it safe from falsified information and hacks once formed.

Ease to use

Ease of use is the reason why Rabid Doge has value. All you need is a smart device, an internet connection and instantly you become your own payments and money transfers.

Rabid Doge Wallet

The Rabid Doge version is supported on both Android and iOS. The wallet is highly focused on enabling users to manage their tokens and interact with the ecosystem. The private keys for the wallet are stored on the user's device and are secured through Secure Enclave and biometric authentication technology.

Users can complete all the normal functions that a wallet provides. They can monitor their balance as well as send and receive tokens. Users can also exchange on through the Rabid Doge and use and swap their tokens. The wallet enables users to access decentralized exchanges so that they can easily convert between their tokens. Rabid Doge is fast, secure, and will have a low transaction fee than others, and users can donate and vote for the organization by using our wallet. A user can hold and swap by using the Rabid Doge

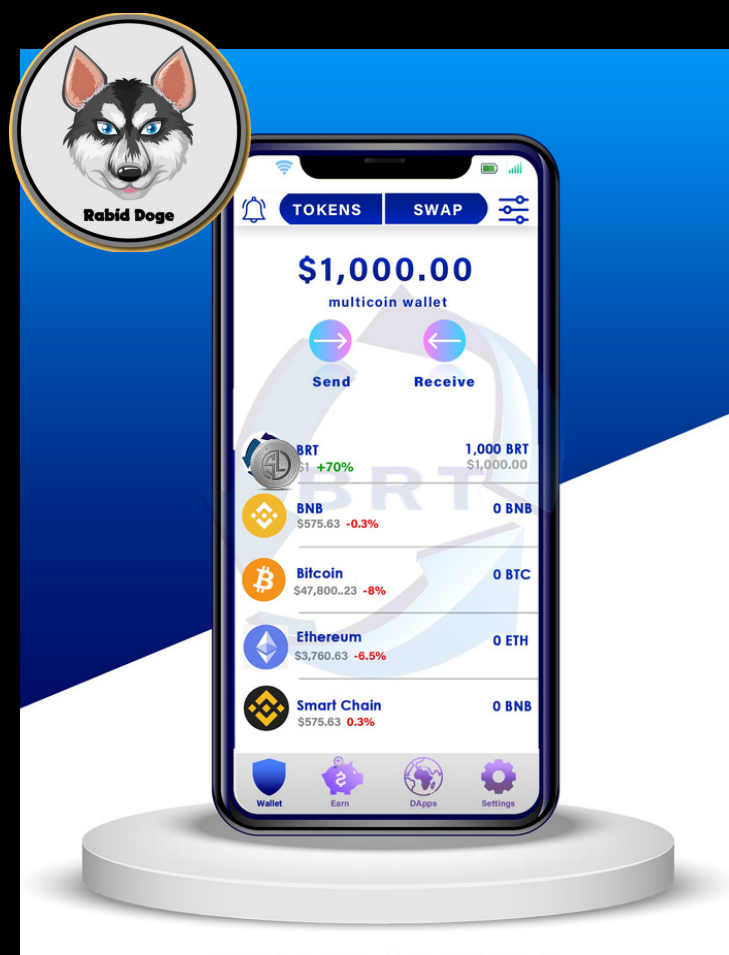

Here are some of the important features of Wallet:

- Easy to use. It's just like any other software or wallet that you use for your day-to-day transactions.
- Highly secure. It is just a matter of securing your private key.
- Allows instant transactions across geographies. And these are barrier-free, without intermediaries.
- Low transaction fees. The cost of transferring funds is much lower than with traditional banks.
- Allows transactions across multiple cryptocurrencies. This helps you do easy currency conversions.

Wallet Key Features

- Dashboard with Deposit and Withdraw Charts
- Fully responsive and dynamic design
- Dashboard History chart
- Real time charts
- Wallet List
- Deposit
- Withdrawals
- Wallet Activity transaction
- Buy tokens with debit and credit card
- Generate wallet address
- User can send token to both internal and external address
- User profile
- Secured withdrawal using queue
- All files are well commented
- Well Documentation
- Free Updates
- Customer support
- Browser
